I'm God

Before there was a beginning
Before the angels learnt to sing
Before there was even a Universe
I was doing my thing Before there was constellations
Before there was any land
Before there was pretty much anything
I had got it all planned

CHORUS

'Coz I'm God, I'm the star of the skies
I'm the beat of your heart, I'm the light in your eyes
I'm God, what I say is true
There's a little bit of me in every one of you

Well I made me some dark, I made me some light
I separated night from day
Then I made a planet and people to man it
Gave y'all rules to obey
So listen up folks this ain't no joke
I'm the dude who is number one
I'm the numero uno, the big supremo
Where it ends and where it begun

CHORUS

(Spoken)

Here I come

Across the nation and all Creation

I'm looking just for you

INSTRUMENTAL

There's a principle in Creation

Let me tell you 'bout what I mean

You're either for me or you're against me

You know there ain't no in between

So sit up an' pay some attention

You gotta hear what I've got to say

You'd better be certain when we pull the final curtain

An' you find it's Judgment Day.

CHORUS TWICE TO FINISH
